SECTION IV.

PROJECT DESCRIPTION AND STATEMENT OF WORK

Flood Emergency Response Plan

Introduction and Background:

The City of Corona (population 159,503) lies in a valley in the northwest corner of Riverside County, 45 miles southeast of Los Angeles. The City is traversed by the Santa Ana River, Temescal Creek, Mabey Canyon Wash, and several smaller channels. It is also located downstream from two major dams. As such, Corona is on the receiving end of numerous waterways in the area and is therefore highly vulnerable to flooding and disruption of critical services. Approximately one-half of the land area within the City limits is identified as 100-year or 500-year flood zones. This vulnerability is heightened by the risk of dam failure at nearby Lake Mathews or Prado Dam in the event of an earthquake.

At present, Corona has emergency operations procedures to address a wide range of emergency responses, including wildfires, earthquakes, terrorist threats, and other natural disasters. However, in spite of its previous floods and high risk for future floods, the City does not have a documented Flood Emergency Response Plan. There is a critical need for a comprehensive Flood Emergency Response Plan in order to effectively prepare and respond to floods while ensuring the safety of residents along with First Responders and to minimize destruction of vital infrastructure and other property. The project provides the opportunity for multiple jurisdictions to benefit as stakeholders by providing their input and participating in the development process.

The City applied for and has received a grant award from the Department of Water Resources' Flood Emergency Response Projects – Statewide Grant Round 2 as part of Proposition 84. The purpose of the grant is to develop a Flood Emergency Response Plan (Plan) for the City, as well as to develop and conduct tabletop and functional training exercises aimed at preparing the City and other participating agencies for flood response.

Consultant Experience:

The selected consultant must be able to demonstrate experience in City emergency management plans, and in particular experience with flood emergency response plans. The consultant must be able to effectively manage the work plan and conduct regular progress meetings throughout the duration of the work.

Proposed Project Description:

The proposed project consists of the development of a Flood Emergency Response Plan, in consultation with key agencies identified in this Statement of Work. The plan shall include an analysis of the City's current National Incident Management System (NIMS) cost recovery compliance, communication drills and exercises, and any Standardized Emergency Management System (SEMS)/NIMS enhancements needed as a result of this process.

Development of Flood Emergency Response Plan.

In spite of its significant flood risks, the City does not have a documented Flood Emergency Response Plan. Corona's Local Hazard Mitigation Plan identifies specific local flood hazards

(dams, rivers, channels), but does not include procedural guidelines for emergency responders in the event of a flood. The City's Emergency Operations Plan (EOP) provides the framework and coordination within the levels of government for emergencies and disasters.

Interagency Coordination.

The Plan will provide the City with detailed processes for interagency coordination and responding specifically to a flood emergency. The City recognizes that both its primary and backup Emergency Operation Centers (EOC) may be compromised in the event of a severe flood emergency. The City's primary EOC is located in the City's Corporation Yard near Temescal Creek and in a 100-year flood zone. The City's back-up EOC is located in City Hall, located in a 500-year flood zone. Although it is unlikely both buildings would be inoperable in a flood emergency, it is a possibility that personnel will be unable to reach the EOC. The Plan is vital as the City needs to be prepared—particularly in the event of an earthquake-caused dam failure at Lake Mathews, which would likely inundate the City's EOC at City Yard.

Communication Drills and Exercises.

Communication processes will be at the heart of the Corona Plan. The two training drills which are included in this project will allow for multi-agency coordination during a mock flood emergency. The Plan will provide detailed instructions for the following communications:

- Assuming incident command. Establishing a unified command if a multi-agency response is required.
- Relaying initial incident assessment to responding units. The assessment will include incident complexity, number of casualties, life/safety issues, etc.
- Establishing an Incident Command Post and/or high-water staging areas.
- Requesting additional resources; establish staging area(s).
- Inter-departmental coordinating to determine flood stage and related flood inundation area(s).
- Assisting the City of Corona Police Department with evacuating areas within flood inundation zone and CHP/Sheriff's Department in the identification of safe evacuation routes.
- Planning with local hospitals and fire department for swift water rescues
- Coordinating with law enforcement to secure, isolate, and deny entry to flood inundation area(s).
- Assisting the City of Corona Police Department with identifying adequate evacuation reception areas. If long-term evacuation of an area is required, notify and coordinate with the American Red Cross regarding activation of shelter(s).
- Providing periodic status reports to the Emergency Operation Center, if activated. At a minimum, provide information regarding response activities, injuries, and sustained damage.
- Notifying City of Corona Fire Department, Police Department and Operational Area Coordinators on water rescues.
- Coordinating emergency public information with County Office of Emergency Services and the City's Public Information Officer.
- Assisting the City of Corona Department of Water Power, Maintenance Services Department and Public Works Department in any possible manner, including diverting and/or diking flood waters, pumping out flooded critical facilities, clearing drains, and sandbagging operations.

NIMS Cost Recovery Compliance.

The City is currently NIMS cost-recovery compliant and has utilized the required accounting procedures in order to receive reimbursement from federally-declared disasters. The City's cost-recovery compliance ensures the financial administration function is performed consistent with SEMS/NIMS guidelines, including:

- implementing a Disaster Accounting System;
- maintaining financial records of the emergency (losses); and
- tracking and recording all staff time and overtime.

The Plan will include the required cost-recovery compliance and accounting procedures. The planning consultant will be tasked with reviewing the City's existing Disaster Accounting System and providing any necessary updates/recommendations to be included in the new Plan.

SEMS/NIMS Enhancement.

The City is continuously working to provide training opportunities and resources necessary to meet both the requirements of the NIMS and the California SEMS. The Flood Emergency Response Plan expands the NIMS framework in Corona from the operational level to the field level. It will allow all SEMS/NIMS trained responders to utilize the response protocol and training in the flood response. The cohesive NIMS based response plan will allow every responder (from Corona or from an outside jurisdiction) to follow a NIMS model response protocol.

As first responders and mutual aid providers, the City of Corona Fire Department is in full compliance with training requirements established by the SEMS/NIMS framework. The Plan will be prepared in accordance with the following:

- National Incident Management System (NIMS);
- National Response Framework (NRF, formerly NRP);
- Standard Emergency Management System (SEMS), CA;
- Incident Command System (ICS);
- Riverside County Emergency Plan; and
- California State Emergency Plan.

The City places a high priority on NIMS/SEMS training. It is the City's goal to train every City employee in NIMS. There are currently 526 City employees, or about two thirds of the City's total personnel, who are NIMS certified. NIMS training began in Corona following the post-Katrina Emergency Reform Act of 2006. The City offers NIMS/SEMS training on a regular basis, as recently as October 2015. The City's EOP is also SEMS/NIMS compliant and consistent with the Operational Area Plan(s). Expanding the framework to the field level will maximize the benefits of the extensive NIMS-trained personnel in Corona.

**CITY OF CORONA
PROFESSIONAL SERVICES AGREEMENT
WITH [***INSERT NAME***]
(EMERGENCY RESPONSE PLANNING SERVICES
FLOOD EMERGENCY RESPONSE PLAN PROJECT)**

1. PARTIES AND DATE.

This Agreement is made and entered into this [***INSERT DAY***] day of [***INSERT MONTH***], 2017 (“Effective Date”) by and between the City of Corona, a municipal corporation organized under the laws of the State of California with its principal place of business at 400 South Vicentia Avenue, Corona, California 92882 (“City”) and [***INSERT NAME***], a [***[INSERT TYPE OF ENTITY - CORPORATION, PARTNERSHIP, SOLE PROPRIETORSHIP OR OTHER LEGAL ENTITY]***] with its principal place of business at [***INSERT ADDRESS***] (“Consultant”). City and Consultant are sometimes individually referred to as “Party” and collectively as “Parties” in this Agreement.

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing **Emergency Response Planning Services** to public clients, is licensed in the State of California, and is familiar with the plans of City.

2.2 Project.

City desires to engage Consultant to render such services for the **Flood Emergency Response Plan Project** (“Project”) as set forth in this Agreement.

2.3 Corona Utility Authority.

Consultant understands that the City has entered into a Water Enterprise Management Agreement and a Wastewater Enterprise Management Agreement, both dated as of February 6, 2002, with the Corona Utility Authority (“CUA”) for the maintenance, management and operation of those utility systems (collectively, the “CUA Management Agreements”). To the extent that this Agreement is deemed to be a "material contract" under either of the CUA Management Agreements, City enters into this Agreement on behalf of the CUA and subject to the terms of the applicable CUA Management Agreement(s).

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional **Emergency Response Planning** consulting services necessary for the Project (“Services”). The Services are more particularly described in Exhibit “A” attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules, and regulations.

3.1.2 Term. The term of this Agreement shall be from *****INSERT START DATE***** to *****INSERT ENDING DATE***** (“Term”), unless earlier terminated as provided herein. Consultant shall complete the Services within the Term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the Term of this Agreement one or more times by executing a written amendment pursuant to Section 3.6.8 below (each a “Renewal Term”). The terms “Term” and “Renewal Term” may sometimes be generally and collectively referred to as “Term” in this Agreement.

3.2 Responsibilities of Consultant.

3.2.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Consultant retains the right to perform similar or different services for others during the Term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Consultant shall also not be employees of City and shall at all times be under Consultant’s exclusive direction and control. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers’ compensation insurance.

Consultant shall perform the Services within the Term of this Agreement, in accordance with the Schedule of Services set forth in Exhibit “B” attached hereto and incorporated herein by reference, and in accordance with any other completion schedule or milestones which may be separately agreed upon in writing by the Parties. Consultant represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Consultant’s conformance with the Schedule, City shall respond to Consultant’s submittals in a timely manner. Upon request of City,

Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.2.3 Conformance to Applicable Requirements. All Services performed by Consultant shall be subject to the approval of City.

3.2.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. As discussed below, any personnel who fail or refuse to perform the Services in a manner acceptable to the City, or who are determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project or a threat to the safety of persons or property, shall be promptly removed from the Project by the Consultant at the request of the City. The key personnel for performance of this Agreement are as follows: *****INSERT NAMES*****.

Consultant shall not accept direction or orders from any person other than the City's Representative or his designee.

3.2.6 Consultant's Representative. Consultant hereby designates *****INSERT NAME OR TITLE*****, or his or her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. Finally, Consultant represents that it, its employees and subconsultants shall have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the Term

of this Agreement. As provided for in the indemnification provisions of this Agreement, Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its sub-consultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

By executing this Agreement, Consultant verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Consultant. Consultant also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the Term of the Agreement. Consultant shall avoid any violation of any such law during the Term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Consultant shall maintain records of each such verification, and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Consultant's compliance with the requirements provided for in Section 3.2.9 or any of its sub-sections.

3.2.9.2 Employment Eligibility; Subcontractors, Consultants, Sub-subcontractors and Subconsultants. To the same extent and under the same conditions as Consultant, Consultant shall require all of its subcontractors, consultants, sub-subcontractors and

Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required by City. City reserves the right to select the method of document reproduction and to establish where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of five (5) years following completion of the Project, and shall make copies available to City upon the

3.5.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.
