## Corona Fire Department

Established in 1898, the Corona Fire Department has grown from an all-volunteer department prior to 1965, to a paid-part volunteer department, and in 1972 became a full-time paid professional department. While we value our traditions and history, we also pride ourselves in the cooperative and innovative services that the men and women of the Corona Fire Department provide.

### Providing:

- Integrated Fire Protection
- Emergency Medical Services
- Hazardous Materials Team (local)
- Search and Heavy Rescue
- Planning and Prevention
- Preparedness
- Education

### Staffing:

The Corona Fire Department maintains full staffing on each piece of apparatus around the clock.

Based on seven locations the Department currently staffs seven advanced life support fire engines, one truck company, one squad and one chief officer, 24 hours per day.

Each engine company and the truck are staffed with 1 fire captain, 1 fire engineer, 1 firefighter-paramedic and 1 firefighter. The squad is staffed with a fire engineer and a firefighter.

## Emergency Medical Services

The Corona Fire Department provides protection for our citizens with a full service response force. The addition of Paramedics to fire department services is saving lives in the community like never before. To provide these advanced life care services, the Corona City Council approved by Resolution what is called the EMS Subscription Program.

When the fire department provides emergency medical care to a patient, a fee of \$350 will be charged. With the EMS Subscription program however, residential subscribers have the option to pay only \$48 per year in lieu of the fee, covering all permanent residents of their household.

The newly annexed area of the City would have a two year phase-in period for the EMS Subscription program .

## Integrated Fire Protection

Mixed wildland/urban interface is characterized by isolated homes, subdivisions and small communities situated in wildland settings. Because of this wildland/urban interface, the Corona Fire Department is a participant in mutual aid plans and agreements that provide "Unified Command", with surrounding fire agencies protecting state, federal and local responsibility lands. These agreements provide added resources such as engines, aircraft, hand crews and dozers and whatever necessary to protect lives and property in and around the City of Corona for fires, as well as flooding and other emergencies.

## A Presence in the Community

Responding to emergencies is only a portion of what the Corona Fire Department does in our community. Participation at community events and supporting individuals and organizations where there is a need, shows the other side and the heart of our department.

## Fire Prevention /Planning Division

- Education and awareness
- Weed abatement
- Juvenile Fire Setter Program
- Inspections
- Investigations
- Customer complaints and concerns
- In-house plan review / new development
- Special events
- Hazardous material reporting
