Newport Beach, California 92660

Attention: Mr. Bentley Kerr

September 16, 2009

Bluestone Communities  
1300 N. Bristol Street, Suite 214  
Newport Beach, California

Project No. 31558.21

Attention: Mr. Bentley Kerr

Subject: Phase I Environmental Site Assessment Update, Arantine Hills,  
Southwest of Interstate 15 Freeway, and South of Eagle Glen Parkway,  
City of Corona, Riverside County, California

Attached herewith is the Phase I Environmental Site Assessment Update for the 274± acre Arantine Hills project, generally located southwest of Interstate 15 freeway, and south of Eagle Glen Parkway, in the city of Corona, Riverside County, California.

This Phase I Environmental Site Assessment Update was authorized by Bluestone Communities based upon a scope of services generally outlined in our proposal letter dated August 15, 2009.

We appreciate the opportunity to provide this Phase 1 Environmental Site Update for this project. If you have any questions or comments regarding this assessment, please do not hesitate to contact this firm at your convenience.

## 1.0 SUMMARY

A Phase I Environmental Site Assessment Update was conducted by this firm for the Arantine Hills. The 274± acre site of former citrus grove is generally located southwest of Interstate 15 freeway, and south of Eagle Glen Parkway, in the City of Corona, Riverside County, California. The present and past site usage has been citrus groves and/or vacant land.

The subject site has undergone significant changes since our previous visit in 2002, when the site was predominately covered with citrus groves. The site has now been cleared of citrus trees. Structures presently on the site include, water wells, power lines, a workshop, and mobile home. The workshop was left to store and maintain two tractors used for cutting of weeds for periodic weed control.

There are no sites listed with the regulatory agencies within a one-mile radius which appear to pose an adverse environmental impact to the subject site.

This Phase I Environmental Site Assessment Update has revealed no evidence of RECs indicative of releases or threatened releases of hazardous substances on, at, in, or to the subject site, and no further environmental assessment is necessary. The former diesel aboveground storage tank, other hazardous materials containers, and remnant hazardous materials, from the former citrus grove operations should be removed from the site and properly disposed of or recycled. The recommendation provided in the Phase I ESA report, with respect to the testing of export dirt from the site for OCPs, is still valid and applicable.

## 2.0 INTRODUCTION

During August of 2009, a Phase I Environmental Site Assessment (ESA) Update was conducted by this firm for the Arantine Hills project, a 274± acre former citrus grove, generally located southwest of Interstate 15 freeway, and south of Eagle Glen Parkway, in the City of Corona, Riverside County, California. This update was based upon the following environmental report prepared for the subject site:

*Phase I Environmental Site Assessment and Limited Site Characterization,  
McMillan Farm Properties, dated March 21, 2002, Project No. 31558.2*

This update will use information contained in this previously prepared report for the subject site.

This Phase I ESA Update was conducted utilizing the American Society of Testing Materials (ASTM) Standard Practice for Phase I Environmental Site Assessments (E 1527-05) and All Appropriate Inquiries (AAI) set forth in 40 CFR Part 312. LOR Geotechnical Group, Inc. (LOR) assessed whether the past (March of 2002 to the present) use at the subject site has created any recognized environmental conditions in connection with the property. Recognized environmental conditions (RECs) means the presence or likely presence of any hazardous substance or petroleum products on the property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property. RECs do not include *de minimus* conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of any enforcement action if brought to the attention of appropriate governmental agencies.

## 2.1 Detailed Scope-of-Services

The scope of this assessment included: 1) A reconnaissance of the site and immediate vicinity; 2) A compilation, review and interpretation of published reports; 3) Review of the data available from various regulatory and/or public agencies; 4) Review of historical information; 5) Interview with the current owner of the subject site; and 6) Preparation of this report.

## 2.2 Non-Scope Considerations

The following environmental issues are outside the scope of ASTM E 1527-05, All Appropriate Inquiries, and the BERs being evaluated, and were not addressed in this report:

- Lead in Drinking Water
- Methane
- Cultural Land Historical Resources
- Industrial Hygiene
- Health and Safety
- Ecological Resources

- Endangered Species
- Indoor Air Quality
- Mineral Resources
- Natural Hazards
- High Voltage Power Lines

### 2.3 Significant Assumptions

It was assumed that the information provided to this firm was accurate, unless there was evidence or some reason to suggest otherwise.

### 2.4 Limitations and Exceptions

This report was prepared solely for the use and benefit of LOR's client, Bluestone Communities, and their affiliates and assigns, they may release this information to third parties, who may use and rely upon this information at their discretion. However, any use of or reliance upon this information by a party other than Bluestone Communities, and their affiliates and assigns, shall be solely at the risk of such third party and without legal recourse against LOR Geotechnical Group, Inc.; its subsidiaries and affiliates; or their respective employees, officers, or directors; regardless of whether the action in which recovery of damages is sought is based upon contract, statute, or otherwise. This information shall not be used or relied upon by a party which does not agree to be bound by the above statement.

The content and conclusions provided by LOR in this assessment are based on information collected during our investigation, which may include, but is not limited to, visual site inspections, interviews with the site owner, regulatory agencies and other pertinent individuals, a review of available public documents, subsurface exploration and laboratory testing of soil samples, and our professional judgement based on said information at the time of preparation of this document.

This report has been prepared in accordance with generally accepted practices using standards of care and diligence normally practiced by recognized consulting firms performing services of a similar nature. LOR Geotechnical Group, Inc. is not responsible for the accuracy of information provided by other individuals or entities which is used in this report. This report presents our professional judgement based upon data and findings identified in this report, and the interpretation of such data based upon our experience and background, and no warranty, either expressed or

implied, is made. The conclusions presented are based upon the current regulatory climate and may require revision if future regulatory changes occur.

The findings of this report are valid as of this date. Changes in the condition of a property can, however, occur with the passage of time, whether they be due to natural processes or the work of man on this or adjacent properties. In addition, changes in the Standards-of-Practice and/or Governmental Codes may occur. Due to such changes, the findings of this report may be invalidated wholly or in part by changes beyond our control. Therefore, this report should not be relied upon after a significant amount of time without a review by LOR Geotechnical Group, Inc., verifying the suitability of the conclusions and recommendations.

## 2.5 User Reliance

This environmental assessment was conducted for Bluestone Communities, their affiliates and assigns, who may rely on its contents and conclusions.

## 2.6 Historical Environmental Information on and Adjoining the Property

A Phase I Environmental Site Assessment (ESA) and Limited Site Characterization (LSC) report, (LOR, 2002) previously prepared by this firm for the subject site, was used as the basis for this current update. The Phase I ESA and LSC was conducted for approximately 530 acres of which the current subject site was a part. This earlier report noted that the site was utilized from the at least 1962 as citrus groves. Prior to 1962 the site was vacant land. Structures associated with the citrus farming operations included propane powered wind machines, above ground storage tanks, one mobile home, one steel storage building, a retention basin, and several power poles. The above storage ground tanks consisted of a 1,000 gallon gasoline tank, a 500 gallon diesel tank, a former 10,000-gallon smudge pot fuel tank, a 10,000-gallon plastic fertilizer tank and a 1,000 ± gallon domestic water tank. A Limited Site Characterization (LSC) was conducted, as part of the Phase I activities. The LSC was conducted to address residual organochlorine pesticides,(OCPs), smudge pot storage area, 10,000-gallon above ground smudge oil storage tank, and a 10 foot by 10 foot storage shed, just off-site.

The Phase I report concluded that there was no residual hydrocarbons at the smudge pot storage area, the roofing shingles and retention basin asphaltic materials did not contain asbestos, the former 10,000-gallon above ground storage tank did not have

any significant hydrocarbon contamination, the approximately 10 foot by 10 foot shed which may or may not be located on the property west of Parcel 4 had very high levels of the pesticides, DDT, Endrin, and Chlordane in the soil beneath the wood floor, and contained approximately 5 pounds of Chlordane. The Chlordane powder as well as and some soil under and in the area of the shed, would need to be removed if it was part of the site. Our current site reconnaissance indicated the shed was no longer present. Residual OCPs were present in the site soils, generally at levels below concern, however some samples had DDT above 1 ppm. Soil, if exported off the site, should be checked to verify it has less than 1 ppm DDT.

Except as stated above, the Phase I ESA and LSC report previously prepared by this firm for the site did not reveal any RECs associated with the property.

A Phase I Cultural Resources Investigation of 500 +/- in the Bedford Canyon Area Near the City of Corona, Riverside County, California, (McKenna, et al. 2002) investigated the paleontological, archeological, and cultural resources of an approximate 500-acre property of which the current site is a part. Their report concluded there were no paleontological, archeological, or cultural resources on the subject site.

The Revised Aerially Deposited Lead Survey and Environmental Site Assessment, Arantine Hills Development, I-15 and Cajalco Road, Corona, California (Ninyo & Moore 2009) was an Aerially Deposited Lead (ADL) Survey and Environmental Site Assessment (ESA) for the proposed Interstate 15 (I-15) at Cajalco Road development. The area of this assessment was for property north of the subject site, adjacent to the I-15 Freeway, to determine the presence of aerially deposited lead, organochlorine pesticides (OCPs) and arsenic in soil at the site from historical uses of the site and nearby properties, and total petroleum hydrocarbons (TPHs), metals, and volatile organic compounds (VOCs) in soil underlying a stained concrete pad suspected of previously supporting a wind machine. The report concluded that there was no lead, metal, petroleum hydrocarbons, or pesticides (OCPs) in the soil at levels that presented a significant risk.

### 3.0 USER PROVIDED INFORMATION

#### 3.1 Title Records

Title Records were not provided for this Phase I Update. For the Phase I ESA (LOR, 2002), an Environmental Chain of Title was conducted for the site by Bank Information Solutions, Inc. Their search revealed the site was originally owned by the Corinta Ranch Company from prior to 1940. The various parcels that make up the site were sold to individuals over the years. The McMillan's obtained ownership in 1986 and purchased the last parcel in 2001, no environmental liens were listed for the property.

#### 3.2 Environmental Liens or Activity and Use Limitations

For this Phase I Update, Environmental Data Resources, Inc. (EDR) provided a current Regulatory Agency database search, the EDR radius map report, which includes a search of CERCLIS lien information, land use control information, deed restriction listings, and environmental lien listings. There were no such listings for the subject site.

#### 3.3 Specialized Knowledge

No specialized knowledge was provided to this firm for this Phase I update.

#### 3.4 Commonly Known or Reasonably Ascertainable Information

The subject site is part of a Specific Plan known as Arantine Hills, a master planned residential and commercial community. The initial Specific Plan for the Arantine Hills project was approximately 500 acres, of which the subject site is a part.

#### 3.5 Owner, Property Manager, and Occupant Information

Property owner information was provided by the user. The owner of the site is Gary and Patricia McMillan of McMillan Farm Management. The McMillan's obtained ownership in 1986 and purchased the last parcel in 2001.

### 3.6 Reason for Performing Phase I ESA Update

The Phase I ESA is being performed as part of the due diligence for the development of a master planned community.

## 4.0 SITE RECONNAISSANCE

A site reconnaissance was conducted on August 11 2009, by a representative from this firm. To orient our visit a copy of the "Exhibit 4.1, Land Use Plan", prepared by Bluestone Communities, undated and not-to-scale, was provided for our use. A copy of this plan is presented within Appendix A.

### 4.1 Location and Legal Description

The subject site consist of a series of parcels, which currently total approximately 274 acres, located southwest of the interstate 15 freeway, and south of Eagle Glen Parkway, in Riverside County, along the south eastern margins of the City of Corona. At the time of our review, these parcels were listed by the Assessor's Parcel Numbers (APNs) as follows, 282-030-03 (36.65 acres), -04 (35.71 acres), -05 (10.29 acres), -06 (21.25 acres), -08 (40.00 acres), and 279-190-045 (77.36 acres), and 279-240-018 (57.37 acres). Together, these parcels form an irregular shaped site comprised of just over 270 acres in size.

### 4.2 Site and Vicinity General Characteristics

The subject site is situated predominately within the lower reaches of Bedford Canyon. Erosion of this canyon has incised this area into a relatively wide valley that falls to the northeast. The floor of this valley is relatively planar, with a gentle topographic slope to the northeast. The sides are generally steep, in some cases near vertical, with slopes that become higher to the southwest, in some cases exceeding 120 feet in height. The width of the valley floor also increases, ranging from around 1,100 linear feet in width along the far south-west end of the property, to about 2,200 linear feet in width at the property's northeastern end. At the time of our reconnaissance, the site was predominately comprised of vacant land, with a few buildings on-site in various areas.

#### 4.3 Current Use of the Property

During our past studies, Mr. McMillan informed us that when McMillan Farm Management took over the site they removed the previously existing orange and lemon trees and replaced them with grapefruit trees. However, at the time of our August 11, 2009 site reconnaissance, the trees on the site had been removed. During our visit, we met with Fidel of McMillan Farms who informed us that McMillan Farm Management stopped using the site for grapefruit cultivation due to the rising cost of water and allowed the trees to die off. Subsequently, the trees were removed as they presented a fire hazard. The previously existing water wells, power lines, steel building (workshop), and small mobile home still remain, with the workshop used to store and maintain two tractors for periodic weed control.

The Land Use Plan by Bluestone Communities, Enclosure A-2, indicates that the proposed future development of the parcels of land described above will include 18 different planning areas (PA) ranging in size for 38.3 acres to 1-acre totaling 274.8 acres. During our site reconnaissance we were able to distinguish the general regions of each parcel utilizing topographic features, dirt roads, or man-made features, however, not all parcel boundaries were exactly defined. Therefore the following descriptions of the conditions on each of the following PA describes the conditions noted in the general region of and around the given PA.

##### 4.3.1 PA 1

PA 1 is generally located within the south western portion of the Assessor's Parcel 282-030-03, and will be comprised of 19.9 acres. This parcel is bounded by a tract of existing residential homes on the west, vacant land on the south, and the maintenance center for the Eagle Glen Golf Club to the southwest, PA 2 on the east and PA 4 on the north. The western boundary has a chain link fence, while there are no other district boundaries on this PA. At the time of our visit, this parcel was comprised of vacant land with a moderate covering of weeds, which appear to have been recently disced, and/or mowed with a tractor. No structures were noted. The topography of this PA is generally planar, with a slight fall to the northwest. This area is located along the northern side of the canyon so that the area just beyond to the north and northwest rises up at a moderate gradient to the housing tract above. The slope area is covered with a dense growth of brush and small trees.

#### 4.3.2 PA 2

PA 2 is generally located within the south eastern portion of the Assessor's Parcel 282-030-03, and will be comprised of 9.3 acres. This parcel is bounded by PA 1 on the west, vacant land on the south, PA 17 on the east and PA 5 on the north. No distinct boundaries were noted in the field. At the time of our visit, this parcel was comprised of vacant land with a moderate covering of weeds which, very similar to the adjacent planning areas, appear to have been recently disced, and/or mowed with a tractor. The topography of this PA is generally planar, with a slight fall to the northwest.

#### 4.3.3. PA 3

PA 3 is generally located within the PA 1, and will be the smallest PA of the project consisting of only 1-acre of land. The descriptions of this PA is essentially the same as that of PA 1, which is that it is comprised of vacant land that has been recently disced.

#### 4.3.4. PA 4

PA 4 is generally located within the central western portion of the Assessor's Parcel 282-030-03, and partially on the Assessor's Parcel Number 282-030-04. This PA will be comprised of 14.7 acres. This parcel is bounded by the edge of Bedford Canyon on the west and northwest, which leads up into the adjacent residential housing tract to the northwest. PA 4 is bounded on the northeast by PA 7, on the east by PA 5 and 6, and on the south by PA 1. This PA is also comprised primarily of vacant land, although there were several small trees scattered across the site, which has been recently disced for weed control. The site, like PA 1, is bounded on the northwest by a chainlink fence, which lies near the base of the slope leading up to the housing tract. The slope was covered in heavy brush.

#### 4.3.5. PA 5

PA 5 is generally located within the south portion of the Assessor's Parcel 282-030-04, and will be comprised of 6.9 acres. This parcel is bounded by the PA 2 on the southwest, PA 4 on the northwest, PA 6 on the northeast, and PA 17 on the southeast. This PA was comprised of primarily of vacant land which also appears to have been recently cleared of groves. The topography of this PA was generally planar,

with a slight slope to the north and northeast. Several wooden power poles were noted, running across the south end of this parcel, and across the center. These appear to have been used in the past to bring power to a water well located near the center of this PA. The only other structure noted was a small, above ground water reservoir, and what appears to have been the support to an old wind machine. The water reservoir was a small, approximately 250 gallon, green plastic tank located just south of the old water well. There was also an electric junction box at this location.

#### 4.3.6 PA 6

PA 6 is generally located within the southeastern portion of APN 282-030-04, and will be comprised of 8.1 acres. This parcel is bounded by PA 5 on the southwest, PA's 4 and 7 on the northwest, PA 8 on the northeast and PA 17 on the southeast. At the time of our reconnaissance, this PA there was a dirt road running north-south across the PA. This road used to mark the eastern portion of the citrus groves, with the land to the east in a natural state. Currently, the area west of the road is vacant with the trees recently removed, leaving only weeds and light brush which is occasionally cut down. The area to the east of the dirt road was generally in a native state, covered with a moderately heavy growth of brush. At the far southeastern end of this parcel a road had been cut into the brush extending about 150 feet. A series of white Langstroth bee hive boxes, used for honey bee cultivation were noted at this location along with three 55-gallon drums. Two of the drums were empty and the other two contained bits of burned bee boxes and other trash.

#### 4.3.7 PA 7

PA 7 is located within the central portion of the overall site, APNs 282-030-04, and -05. This PA will be 19.1 acres and is bounded by PA 4 on the southwest, PA 6 and PA 8 on the southeast. The majority of this parcel is comprised of vacant land which was previously utilized for citrus groves, and have now been cleared leaving minor weeds and brush.

Located near the south-center portion of PA 7, a mobile home and an approximately 75-foot by 30-foot metal storage building were located. Both of these structures were documented at the site in our 2002 Phase I report for the site. The mobile home is situated on the east side of the larger metal building and had a propane tank along the south east side. It is our understanding that this facility also has a septic system for

sewage disposal. A series of wooden power poles leads down from Eagle Glen Parkway, along the dirt access road, to the house and metal building.

The metal storage building has a concrete floor and is separated into three areas. The northeast corner of the building is an approximate 15 foot by 30 foot locked room for pesticide storage. Currently, this room contained only a few bags of lime and 11 old pesticide mixing stands, which used to be utilized in the orchards. These appeared to be empty at the time of our visit. Fidel informed us that they no longer use these items. No significant staining of the concrete floor was noted. In the southeast corner of the metal storage building is another approximate 15 foot by 30 foot locked tool area. This contained chains, nuts and bolts, wire, belts, sprayer parts, oil cans, fire extinguisher, PVC fittings and glue, filters, battery charger, and hand tools. No staining of the concrete floor was noted within this area.

The remaining area of the metal storage building (approximately 30 foot by 50 foot) is used to store two small tractors used for weed control, mowing of the fields, a welder, grinder, and an air compressor. Also noted was a 30-gallon drum used for trash, two 5-gallon containers, one for nuts and bolts and one for gasoline, one small container of roundup, and three 55-gallon drums. According to Fidel, these drums contain oil for the tractor, used oil, and one empty drum. Also noted was a 45-gallon plastic drum marked "spray oil" which Fidel said used to be used to spray for dust control. This drum contained only a small amount of oil at the bottom, as Fidel stated they no longer use this. There were several smaller containers marked oil at this location, consisting of a 5-gallon container marked "30-wt oil" and two quarts sized containers of motor oil, and one 5-gallon container marked "gear-oil". On the wall inside of the building there was a Hazardous Materials Management Permit from the County of Riverside, listed as facility number 85877, located at 21002 Bedford Canyon Road, however, this permit expired on May 28, 1999.

On the east side of the metal building were stored PVC pipes and approximately 30 or 40 tires. On the back side of the metal building a small aviary had been built containing several wooden bird cages.

Located about 40 feet to the east-southeast of the metal storage building is a 500-gallon above ground diesel tank. According to Fidel, this tank was used for the previous grove operations and they do not maintain it anymore. No significant staining of the soil was noted beneath the tank.

Approximately 250 feet west of the mobile home, on the south side of the dirt access road, there was a small concrete pad, approximately 4-foot by 5-foot, with two holes in the center. The past use of this pad was not known.

#### 4.3.8. PA 8

PA 8 is located along the middle-eastern portion of the site within the Assessor's Parcel Numbers of 282-030-06 and 08, and will be comprised of 11.0 acres. This parcel is bounded by PA 6 on the southwest, PA 7 on the northwest, PA 14 on the northeast and PA 17 and PA 18 on the southeast. As noted, this parcel is located along the eastern portion of the site, along the eastern wall of Bedford canyon in area which was never contained citrus groves. Therefore at the time of our visit this PA was in a natural state, covered with a moderately heavy growth of brush and weeds. There was a small pile of trash located along the far western edge of this parcel, just off the dirt road that used to defined the eastern end of the groves. The trash consisted predominately of old wooden pallets, with some irrigation supplies of concrete standpipe and PVC pipes and fittings.

#### 4.3.9. PA 9

PA 9 is very similar to PA 3 in that it is a relatively small area, planned for a small park, located between PA 7 to the southwest and PA 10 to the northeast. The descriptions of this PA is essentially the same as that of PA 7, which is vacant land that has been recently disced.

#### 4.3.10. PA 10

PA 10 is generally located within the mid-western portion of the site, in the western portion of APN 279-190-034, and is 12.9 acres. This parcel is bounded on the northwest by the heavily vegetated slope that leads up to the tract of residential homes off Eagle Glen Parkway. It is bounded on the southwest by the proposed PA 9, on the southeast by PA 11, and on the northeast by PA 13. The northwestern boundary, along the base of the slope, has a chain link fence, while there are no other district boundaries on this PA. At the time of our visit, this parcel was vacant with a moderate covering of weeds, which appear to have been recently disced, and/or mowed. No structures were noted with the exception of a small base of an old wind machine. The topography of this PA is generally planar, with a slight fall to the northwest.

4.3.11. PA 11

PA 11 is generally located near the middle portion of the site in the southwestern portion of APN 279-190-034, and is 12.3 acres. This parcel is bounded on the northwest by the proposed PA 10, on the northeast by PA 13, on the southeast by PA 12 and PA 14 and on the southwest by PA 7. The northern portion of the area was predominately vacant land with a moderate covering of weeds, which appear to have been recently disced, and/or mowed. The southern portion of this area lies within one of the areas which was never utilized for citrus groves and is thus in a relatively natural state with heavy brush. These two areas were separated by an east-west dirt road. A groundwater well and six above ground steel tanks were located just north of the east-west dirt road. The tanks are the "free-flow" tanks which were used to mix chemical fertilizer into the irrigation water for the groves. A series of wooden power poles extended out to this parcel from the west to provide power to the well. Just to the east of this area there was an circular concrete foundation which appeared to be the base of an old wind machine. There was also an area, just south of the dirt road, used for bee hives, similar to the area on PA 6, with several white Langstroth bee hive boxes.

4.3.12. PA 12

PA 12 is very similar to PA 9 and PA 3 in that it is a relatively small area, planned for a small park, located predominately within PA 11, and bounded on the northeast by PA 13 and on the southeast by PA 14. The descriptions of this PA is essentially the same as that of PA 11, which is that it is comprised of vacant land that has been recently disced.

4.3.13. PA 13

PA 13 is located along the northern portion of the property, the northern end of APN 279-190-034, and is 19.9 acres. This parcel is bounded on the northwest by the heavily vegetated slope that leads up to the tract of residential homes off Eagle Glen Parkway, however this slope has dropped down to be only around 30 to 40 feet in height at this location. This PA is bounded on the northeast by PA 15, and on the southwest by PA 10 and PA 11. At the time of our visit, this parcel was vacant land with a moderate covering of weeds, which appear to have been recently disced. No structures were noted with the exception of the base of an old wind machine. The topography of this PA is generally planar, with a slight fall to the northwest.

4.3.14. PA 14

PA 14 is generally located along the eastern portion of the site and is located near the middle of APN 279-190-034, and is 18.6 acres. This parcel is bounded on the northwest by the proposed PA 11 and PA 12, and PA 13, and on the southeast by PA 18. The description of this parcel is very similar to that a PA 11, with the northeastern portion of the area was comprised predominately of vacant land with a moderate covering of weeds, which appear to have been recently disced, and/or mowed. The southwester portion of this area lies within one of the areas which was never utilized for citrus groves and is thus in a relatively natural state with heavy brush. These two areas were separated by the same east-west dirt road that also cuts across PA 11. Along the north central portion of this area, just south of the dirt road, was a cleared out area utilized for the cultivation of honey bees, with approximately 10 to 15 Langstroth bee hive boxes scattered around. At this location there were three 55-gallon drums, which had only some dry trash, wood and plastic, inside. Just east of the bee area there was a large stockpile of old rubber irrigation tubing stockpiled.

4.3.15. PA 15

PA 15 is located along the far northwestern portion of the site, just south of Eagle Glen Parkway, and several hundred feet southwest of I-15. It is comprised of the northeastern portion of APN 279-190-034, and is 38.3 acres. As noted, this parcel is bounded on the northwest by Eagle Glen Parkway, which has only a small embankment slope at this location. This PA is bounded on the southwest by PA 13, open space on the northeast, and PA 19 on the southeast. There was a chain link fence along the northern and eastern boundary of this PA at the time of our visit. This parcel was vacant land with a moderate covering of weeds, which appear to have been recently disced, and/or mowed with a tractor. No structures were noted with the exception of the base of an old wind machine. The topography of this PA is generally planar, with a slight fall to the northwest. Along the southeastern boundary, on the PA 19, is the current drainage course for Bedford Canyon, which has an earthen embankment.

4.3.16 PA 16

PA 16 is one of the two Planning Areas on the site not located in the lower reaches of Bedford Canyon, but up on the southern bluff above the canyon. This parcel is bounded generally by I-15 on the northeast, PA 19 on the northwest, and vacant land

on the south. This parcel is 26.4 acres. As previously noted, this PA had been planted in the past with grapefruit trees, however these have recently been removed leaving only furrowed areas with light weeds. The northeastern boundary of this PA contained a chain link fence, while there was a series of small palm trees along the northeastern boundary.

#### 4.3.17. PA 17

PA 17 is a long narrow site located within the current day drainage course of Bedford Canyon. This drainage area appears to have been created in the past by pushing materials from along the base of the steep bluff on the southern edge of Bedford Canyon, out to the north to form an embankment, which has a narrow dirt road along the top. The bluffs along the south side of this drainage are very steep, nearly vertical and up to a 100 feet or more in height.

#### 4.3.18. PA 18

PA 18 is situated along the far southeastern portion of the site and, like PA 16, is located up on the bluffs above the south side of Bedford Canyon. This area is comprised of the south end of the larger APN 279-190-034. This area was never utilized for citrus groves and at the time of our visit was in a relatively natural state with a moderate to heavy growth of weeds and light brush with some scattered small trees. There was a small, winding, dirt path that leads around this parcel, which appears to have been utilized as a motorcycle track. This area is bounded on the east and south by vacant land, and some scattered residential housing on very large lots.

#### 4.3.19. PA 19

PA 19 is located just northeast of PA 18 and is very similar in location and description, consisting of natural land. However, in the center of this PA there is an old water reservoir that is approximately 200 feet in diameter, and about 10 feet deep. The reservoir had a deteriorating lining of an asphaltic material.

In summary, most of the property is located within the Bedford Canyon region which up until very recently was covered with citrus groves. These have been removed leaving the site predominately covered with furrows of weeds and light brush, which is periodically mowed with a tractor. Existing site structures noted on our previous Phase I site visit, included a mobile home, steel work shop building, water wells and

pumps, power poles, some above ground fertilizer tanks, and one small above ground diesel fuel tank, were still present on the site.

#### 4.4 Current Uses of the Adjoining Properties

During our reconnaissance of the subject site, observations, limited by access, of the immediately adjacent properties were conducted. In general, the property is bounded on the northwest by a tract of high density residential homes within the city of Corona. The site is bounded on the northeast by vacant land and the I-15 freeway. The site is generally bounded on the southeast by the south edge of the Bedford Canyon, and/or vacant land with some scattered residential homes. The Eagle Glen Golf Club is located just southwest of the site at the along the upper portions of Bedford Canyon.

Color photographs of the site and adjacent properties are presented within Appendix A.

### 5.0 RECORDS REVIEW

#### 5.1 Standard Environmental Record Sources

LOR Geotechnical Group, Inc. contracted with EDR to provide an environmental database search for the subject site. The database search provides information regarding landfills, underground storage tanks, hazardous waste generators, etc., on the subject site and surrounding properties in accordance with ASTM Standards and All Appropriate Inquiries set forth in 40 CFR part 312. A copy of the EDR database report, which provides a complete list of the federal, state, tribal, and proprietary records searched, is provided in Appendix B. A summary of the databases is tabulated below:

## 5.2 CERCLIS-NFRAP

The Environmental Protection Agency's (EPA) Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS), No Further Remedial Action Planned (NFRAP) is a listing of archived and removed sites from the CERCLIS list. The EPA has determined that where no further steps will be taken to list these sites on the National priorities List. The listed site is the former Liston Aluminum Company, addressed 20401 Temescal Canyon Road, approximately 0.5 miles northeast of the subject site. This property is listed on several databases, however, based on its distance from the site no adverse environmental impact to the subject site is anticipated.

## 5.3 ENVIROSTOR

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) Envirostor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. Two sites, Pacific Clay Products and Paul Hubbs Construction Company (potential school site), were listed on this database. Both sites are located over 0.5 miles east of the subject site, and based on this distance no adverse environmental impact to the subject site is anticipated.

## 5.4 LUST

The State Water Resource Control Board (SWRCB) maintains a list of all leaking underground storage tanks (LUST) within the state. According to the SWRCB LUST database, there is one site, the Liston Aluminum Company. This site had a release of gasoline that resulted in a soil-only environmental case which was closed, and therefore, should have no adverse environmental impact to the subject site.

## 5.5 UST

The State Water Resources Control Board (SWRCB) list of underground storage tanks (UST's) listed one site within a one-quarter mile radius. The site is Eagle Glen Mobil, located at 2261 Eagle Glen Parkway, approximately 0.125 miles northwest of the site.

~~This is a new gas station with three USTs. No leaks have been reported at this facility, and currently poses no adverse environmental impact to the subject site.~~

#### 5.6 HIST UST

The SWRCB maintains the Historical UST (HIST UST) list which contains active and inactive underground storage tank locations. One site is listed in this database within 0.25 mile of the subject site. The listed site is Mc Millan Brothers Citrus Ranch, located at 20551 Bedford Canyon Road, approximately ~~0.25 miles northwest of the subject site.~~ This facility was listed as having five USTs. This property is not a part of the site and was owned by Gary Mc Millan's father and uncle. It has been developed residentially.

This HIST UST site is not anticipated to have an adverse environmental impact to the subject site due to lack of reported UST release(s), distance from the subject site, and its residential development.

#### 5.7 HIST Cortese

The State Water Resources Control Board and Department of Toxic Substance Control Board designate sites for the Historical Cortese list. This list was last updated in 2001 and is used as a historical record. ~~One site, the Liston Aluminum Company, discussed above in the CERCLIS-NFRAP section of this report was listed on this database.~~

#### 5.8 Dry Cleaners

EDR provides a list of dry cleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes. One site, Eagle Dry Cleaners, located at 3811 Bedford Canyon Road, approximately 0.125 miles northwest of the site, was listed on this database. ~~No adverse environmental impact to the subject site is anticipated from this dry cleaners due to its distance from the site.~~

#### 5.9 Orphan Summary

The orphan summary, which is a list of all sites whose location is not readily identified (mapped) and may be near the site was reviewed. Our review of this list indicated there are no listed sites on or adjacent to the subject site.

#### 5.10. Database Summary

Based on the information provided by the public, regulatory, and governmental agencies and information obtained during our records search and literature review, there do not appear to be any sites within a mile that would have an adverse environmental impact to the subject site.

#### 5.11 County Environmental Health Department Records

For accidental spills of hazardous materials within the County of Riverside, the County of Riverside Department of Environmental Health (RCDEH) generally acts as the lead agency, and may be the lead for soil and groundwater assessment and remediation. In letters dated March 5, 2002, the RCDEH previously indicated that no records were found for the site address of 4161 Eagle Glen Parkway. However, there were records for the site address of 21022 Bedford Canyon Road, and the other McMillan Farm property 20551 Bedford Canyon Road, which is the property with the five listed historical USTs.

CRDEH records for 20551 Bedford Canyon Road, the McMillan Farm property with the five listed historical USTs, indicated no crops were cared for after June 1991. This property was developed residentially.

The CRDEH records for the subject site address of 21022 Bedford Canyon Road, which was changed when the site was incorporated by the City of Corona, contained a Business Energy Plan (BEP) Inspector Report dated March 6, 1996. The following items were noted:

- 6 plus propane tanks
- 1,300-gallon diesel tank
- 1,250-gallon fuel tank
- The employee on-site at the time received a BEP application.
- The County inspector also noted the old tank adjacent the entrance road needed to be identified.
- Approximately 30 smudge pots on-site
- A BEP and agricultural handler permit will be required.

A BEP, dated April 10, 1996 listed the following hazardous materials on-site:

- Unleaded gasoline (1,000-gallon AST)
- Diesel (300-gallon AST)
- Propane (seven 1,000-gallon ASTs)
- Compressed gas (oxygen, acetylene)
- Motor oil (30 gallons)
- Urea

A follow-up inspection by the CRDEH on October 23, 1996 had noted the 500-gallon gasoline and 300-gallon diesel ASTs had minor leakage at the pump handle (diesel) and fuel hose (gasoline). They noted the former smudge pot oil AST would need to be removed and soil samples taken.

A change of status from when the farm was annexed by the City of Corona and a 2002 (expiration date) hazardous material facility permit, were also on file.

Copies of the CRDEH records for the subject site are provided within Appendix C.

## **6.0 DATA GAPS**

Under All Appropriate Inquiries, data gaps that remain after the conduct of all required activities must be identified. The source of information consulted to address the data gaps should be identified and the significance of the data gaps with respect to our ability to identify conditions indicative of releases or threatened release of hazardous substances on, at, in, or to the property should be addressed.

There are no significant data gaps remaining after our conduct of the All Appropriate Inquiries.

## **7.0 FINDINGS**

During the course of this Phase I ESA Update, no recognized environmental conditions at the site were revealed.

## **8.0 OPINION**

Based on the information gathered during the course of this Phase I ESA Update, there are no recognized environmental conditions associated with the site.

## **9.0 CONCLUSIONS**

We have performed this Phase I ESA Update in general conformance with the scope and limitations of ASTM Practice E 1527-05 and All Appropriate Inquiries set forth in 40 CFR part 312 for the 274± Mc Millan Farms Property, generally located southwest of Interstate 15 freeway, and south of Eagle Glen Parkway, in the city of Corona, Riverside County, California. This assessment has revealed no evidence of RECs indicative of releases or threatened releases of hazardous substances on, at, in, or to the subject site.

## **10.0 ADDITIONAL SERVICES**

No further environmental assessment is recommended at this time. However, the former diesel aboveground storage tank, other hazardous materials containers, and remnant hazardous materials, from the former citrus grove operations should be removed from the site and properly disposed of or recycled. The recommendations provided in the Phase I ESA report, with respect to the testing of export dirt from the site for OCPs, are still valid and applicable.

**12.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS**

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR part 312.

We appreciate this opportunity to be of service and trust this report provides the information desired at this time. Should questions arise, please do not hesitate to contact this office.

Respectfully submitted,  
**LOR Geotechnical Group, Inc.**

M. Kevin Osmun, CE 55116  
Vice President

MLH:MKO/mmm

Distribution:            Addressee (4)

### 13.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

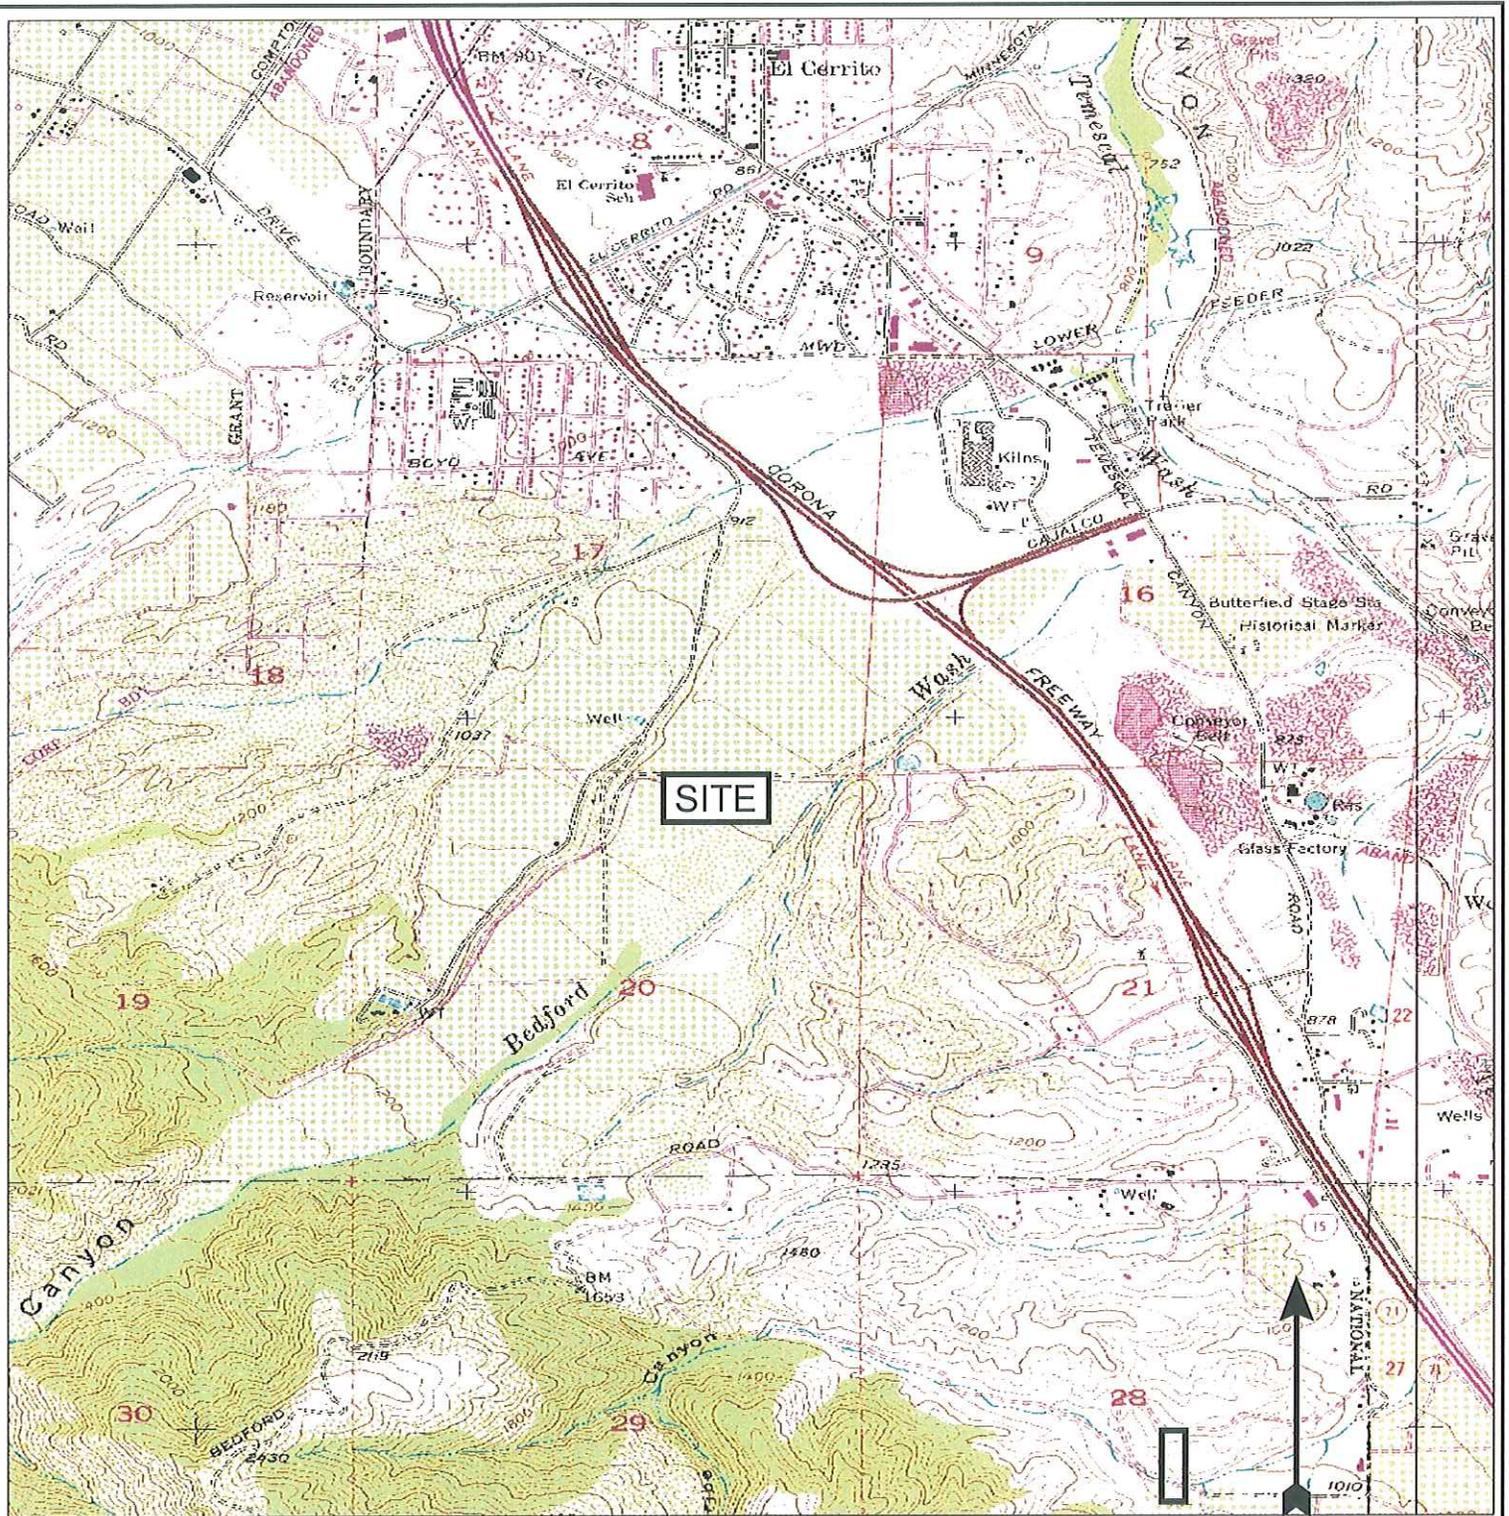

We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquires in conformance with the standards and practices set forth in 40 CFR Part 312.

Mr. M. Kevin Osmun has over 20 years experience in the environmental field. Mr. Osmun directs LOR Geotechnical Group's environmental operations and has conducted over 500 Phase I Environmental Site Assessments for the private and public sectors. The properties have ranged from agricultural to commercial/industrial. In addition to his experience with environmental assessments for property transfers, he has managed projects that require mitigation prior to and during development. Mr. Osmun is well versed in hazardous waste sampling and characterization methodologies in soil and groundwater regimes and risk assessments. Projects have ranged from leaking USTs, solid waste landfills, TSD facility closures to single spill response. LOR Geotechnical Group, Inc. is one of three firms that provides report review for underground storage tank closure for the County of San Bernardino, Fire Department Hazardous Materials Division.

Mr. Osmun has a B.S. in geology from Wayne State University, Detroit, Michigan. He is a Registered Professional Civil Engineer and Environmental Assessor II in the State of California.

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in *bold italics* are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### *Federal CERCLIS NFRAP site List*

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed

## EXECUTIVE SUMMARY

and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 12/03/2007 has revealed that there is 1 CERC-NFRAP site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>LISTON ALUMINUM CO</i>	<i>20401 TEMESCAL CYN</i>	<i>E 1/4 - 1/2 (0.478 mi.)</i>	<i>A5</i>	<i>14</i>

### *State- and tribal - equivalent CERCLIS*

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 05/27/2009 has revealed that there are 2 ENVIROSTOR sites within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

### *State and tribal leaking storage tank lists*

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the State Water Resources Control Board Leaking Underground Storage Tank Information System.

A review of the LUST list, as provided by EDR, and dated 07/07/2009 has revealed that there is 1 LUST site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>LISTON ALUMINUM</i> Status: Completed - Case Closed	<i>20401 TEMESCAL CANYON R E 1/4 - 1/2 (0.478 mi.)</i>		<i>A4</i>	<i>11</i>

## EXECUTIVE SUMMARY

SLIC: SLIC Region comes from the California Regional Water Quality Control Board.

A review of the SLIC list, as provided by EDR, and dated 07/07/2009 has revealed that there is 1 SLIC site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>LISTON ALUMINUM CO</i> Facility Status: Completed - Case Closed	20401 TEMESCAL CYN	E 1/4 - 1/2 (0.478 mi.)	A5	14

### *State and tribal registered storage tank lists*

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, and dated 07/07/2009 has revealed that there is 1 UST site within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, and dated 07/21/2009 has revealed that there is 1 DRYCLEANERS site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Secondary Waste: Not reported  
Secondary Waste Type: Not reported  
Design Flow: 0  
Baseline Flow: 0  
Reclamation: Not reported  
POTW: Not reported  
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## STANDARD ENVIRONMENTAL RECORDS

### *Federal NPL site list*

#### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 02/02/2009	Source: EPA
Date Data Arrived at EDR: 02/12/2009	Telephone: N/A
Date Made Active in Reports: 03/30/2009	Last EDR Contact: 07/31/2009
Number of Days to Update: 46	Next Scheduled EDR Contact: 10/26/2009
	Data Release Frequency: Quarterly

Telephone 206-553-8665

#### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/23/2009	Source: EPA
Date Data Arrived at EDR: 04/28/2009	Telephone: N/A
Date Made Active in Reports: 05/19/2009	Last EDR Contact: 07/31/2009
Number of Days to Update: 21	Next Scheduled EDR Contact: 10/26/2009
	Data Release Frequency: Quarterly

#### NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 05/17/2009
Number of Days to Update: 56	Next Scheduled EDR Contact: 08/17/2009
	Data Release Frequency: No Update Planned

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### *Federal Delisted NPL site list*

#### DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 02/02/2009	Source: EPA
Date Data Arrived at EDR: 02/12/2009	Telephone: N/A
Date Made Active in Reports: 03/30/2009	Last EDR Contact: 07/31/2009
Number of Days to Update: 46	Next Scheduled EDR Contact: 10/26/2009
	Data Release Frequency: Quarterly

### *Federal CERCLIS list*

#### CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 01/09/2009	Source: EPA
Date Data Arrived at EDR: 01/30/2009	Telephone: 703-412-9810
Date Made Active in Reports: 05/11/2009	Last EDR Contact: 07/14/2009
Number of Days to Update: 101	Next Scheduled EDR Contact: 10/12/2009
	Data Release Frequency: Quarterly

### *Federal CERCLIS NFRAP site List*

#### CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 12/03/2007	Source: EPA
Date Data Arrived at EDR: 12/06/2007	Telephone: 703-412-9810
Date Made Active in Reports: 02/20/2008	Last EDR Contact: 06/15/2009
Number of Days to Update: 76	Next Scheduled EDR Contact: 09/14/2009
	Data Release Frequency: Quarterly

### *Federal RCRA CORRACTS facilities list*

#### CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 03/25/2009	Source: EPA
Date Data Arrived at EDR: 04/02/2009	Telephone: 800-424-9346
Date Made Active in Reports: 05/11/2009	Last EDR Contact: 06/01/2009
Number of Days to Update: 39	Next Scheduled EDR Contact: 08/31/2009
	Data Release Frequency: Quarterly

### *Federal RCRA non-CORRACTS TSD facilities list*

#### RCRA-TSDF: RCRA - Transporters, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### *Federal RCRA generators list*

#### RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 11/12/2008  
Date Data Arrived at EDR: 11/18/2008  
Date Made Active in Reports: 03/16/2009  
Number of Days to Update: 118

Last EDR Contact: 07/23/2009  
Next Scheduled EDR Contact: 10/19/2009  
Data Release Frequency: Quarterly

#### RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 11/12/2008  
Date Data Arrived at EDR: 11/18/2008  
Date Made Active in Reports: 03/16/2009  
Number of Days to Update: 118

Telephone: (415) 495-8895  
Last EDR Contact: 07/23/2009  
Next Scheduled EDR Contact: 10/19/2009  
Data Release Frequency: Quarterly

#### RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 11/12/2008  
Date Data Arrived at EDR: 11/18/2008  
Date Made Active in Reports: 03/16/2009  
Number of Days to Update: 118

Source: Environmental Protection Agency  
Telephone: (415) 495-8895  
Last EDR Contact: 07/23/2009  
Next Scheduled EDR Contact: 10/19/2009  
Data Release Frequency: Varies

### *Federal institutional controls / engineering controls registries*

#### US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 03/31/2009  
Date Data Arrived at EDR: 04/22/2009  
Date Made Active in Reports: 05/05/2009  
Number of Days to Update: 13

Source: Environmental Protection Agency  
Telephone: 703-603-0695  
Last EDR Contact: 06/29/2009  
Next Scheduled EDR Contact: 09/28/2009  
Data Release Frequency: Varies

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 03/31/2009	Source: Environmental Protection Agency
Date Data Arrived at EDR: 04/22/2009	Telephone: 703-603-0695
Date Made Active in Reports: 05/05/2009	Last EDR Contact: 06/29/2009
Number of Days to Update: 13	Next Scheduled EDR Contact: 09/28/2009
	Data Release Frequency: Varies

### Federal ERNS list

#### ERNS: Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 12/31/2008	Source: National Response Center, United States Coast Guard
Date Data Arrived at EDR: 01/30/2009	Telephone: 202-267-2180
Date Made Active in Reports: 05/19/2009	Last EDR Contact: 07/21/2009
Number of Days to Update: 109	Next Scheduled EDR Contact: 10/19/2009
	Data Release Frequency: Annually

### State- and tribal - equivalent NPL

#### RESPONSE: State Response Sites

Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 05/27/2009	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 05/27/2009	Telephone: 916-323-3400
Date Made Active in Reports: 06/15/2009	Last EDR Contact: 05/27/2009
Number of Days to Update: 19	Next Scheduled EDR Contact: 08/24/2009
	Data Release Frequency: Quarterly

### State- and tribal - equivalent CERCLIS

#### ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 05/27/2009	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 05/27/2009	Telephone: 916-323-3400
Date Made Active in Reports: 06/15/2009	Last EDR Contact: 05/27/2009
Number of Days to Update: 19	Next Scheduled EDR Contact: 08/24/2009
	Data Release Frequency: Quarterly

### State and tribal landfill and/or solid waste disposal site lists

#### SWF/LF (SWIS): Solid Waste Information System

Active, Closed and Inactive Landfills. SWF/LF records typically contain an inventory of solid waste disposal facilities or landfills. These may be active or inactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 03/09/2009

Last EDR Contact: 06/29/2009  
Next Scheduled EDR Contact: 09/28/2009  
Data Release Frequency: No Update Planned

#### LUST: Geotracker's Leaking Underground Fuel Tank Report

Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these records, and the information stored varies by state. For more information on a particular leaking underground storage tank sites, please contact the appropriate regulatory agency.

### *State and tribal voluntary cleanup sites*

#### INDIAN VCP R7: Voluntary Cleanup Priority Listing

A listing of voluntary cleanup priority sites located on Indian Land located in Region 7.

Date of Government Version: 03/20/2008	Source: EPA, Region 7
Date Data Arrived at EDR: 04/22/2008	Telephone: 913-551-7365
Date Made Active in Reports: 05/19/2008	Last EDR Contact: 04/20/2009
Number of Days to Update: 27	Next Scheduled EDR Contact: 07/20/2009
	Data Release Frequency: Varies

#### INDIAN VCP R1: Voluntary Cleanup Priority Listing

A listing of voluntary cleanup priority sites located on Indian Land located in Region 1.

Date of Government Version: 04/02/2008	Source: EPA, Region 1
Date Data Arrived at EDR: 04/22/2008	Telephone: 617-918-1102
Date Made Active in Reports: 05/19/2008	Last EDR Contact: 07/20/2009
Number of Days to Update: 27	Next Scheduled EDR Contact: 10/19/2009
	Data Release Frequency: Varies

#### VCP: Voluntary Cleanup Program Properties

Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

Date of Government Version: 05/27/2009	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 05/27/2009	Telephone: 916-323-3400
Date Made Active in Reports: 06/15/2009	Last EDR Contact: 05/27/2009
Number of Days to Update: 19	Next Scheduled EDR Contact: 08/24/2009
	Data Release Frequency: Quarterly

### ADDITIONAL ENVIRONMENTAL RECORDS

#### *Local Brownfield lists*

US BROWNFIELDS: A Listing of Brownfields Sites

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes benefit from Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Date of Government Version: 10/01/2008	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/14/2008	Telephone: 202-566-2777

Data Release Frequency: Varies

## Local Lists of Hazardous waste / Contaminated Sites

### CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 07/01/2008  
Date Data Arrived at EDR: 10/31/2008  
Date Made Active in Reports: 12/23/2008  
Number of Days to Update: 53

Source: Drug Enforcement Administration  
Telephone: 202-307-1000  
Last EDR Contact: 03/26/2009  
Next Scheduled EDR Contact: 06/22/2009  
Data Release Frequency: Quarterly

### HIST CAL-SITES: Calsites Database

The Calsites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the Calsites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

Date of Government Version: 08/08/2005  
Date Data Arrived at EDR: 08/03/2006  
Date Made Active in Reports: 08/24/2006  
Number of Days to Update: 21

Source: Department of Toxic Substance Control  
Telephone: 916-323-3400  
Last EDR Contact: 02/23/2009  
Next Scheduled EDR Contact: 05/25/2009  
Data Release Frequency: No Update Planned

### SCH: School Property Evaluation Program

This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category depending on the level of threat to public health and safety or the environment they pose.

Date of Government Version: 05/27/2009  
Date Data Arrived at EDR: 05/27/2009  
Date Made Active in Reports: 06/15/2009  
Number of Days to Update: 19

Source: Department of Toxic Substances Control  
Telephone: 916-323-3400  
Last EDR Contact: 05/27/2009  
Next Scheduled EDR Contact: 08/24/2009  
Data Release Frequency: Quarterly

### TOXIC PITS: Toxic Pits Cleanup Act Sites

Toxic PITS Cleanup Act Sites. TOXIC PITS identifies sites suspected of containing hazardous substances where cleanup has not yet been completed.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 07/01/1995  
Date Data Arrived at EDR: 08/30/1995  
Date Made Active in Reports: 09/26/1995  
Number of Days to Update: 27

Data Release Frequency: Varies

### Local Lists of Registered Storage Tanks

#### CA FID UST: Facility Inventory Database

The Facility Inventory Database (FID) contains a historical listing of active and inactive underground storage tank locations from the State Water Resource Control Board. Refer to local/county source for current data.

Date of Government Version: 10/31/1994  
Date Data Arrived at EDR: 09/05/1995  
Date Made Active in Reports: 09/29/1995  
Number of Days to Update: 24

Source: California Environmental Protection Agency  
Telephone: 916-341-5851  
Last EDR Contact: 12/28/1998  
Next Scheduled EDR Contact: N/A  
Data Release Frequency: No Update Planned

#### UST MENDOCINO: Mendocino County UST Database

A listing of underground storage tank locations in Mendocino County.

Date of Government Version: 06/22/2009  
Date Data Arrived at EDR: 06/22/2009  
Date Made Active in Reports: 07/20/2009  
Number of Days to Update: 28

Source: Department of Public Health  
Telephone: 707-463-4466  
Last EDR Contact: 06/21/2009  
Next Scheduled EDR Contact: 09/21/2009  
Data Release Frequency: Varies

#### HIST UST: Hazardous Substance Storage Container Database

The Hazardous Substance Storage Container Database is a historical listing of UST sites. Refer to local/county source for current data.

Date of Government Version: 10/15/1990  
Date Data Arrived at EDR: 01/25/1991  
Date Made Active in Reports: 02/12/1991  
Number of Days to Update: 18

Source: State Water Resources Control Board  
Telephone: 916-341-5851  
Last EDR Contact: 07/26/2001  
Next Scheduled EDR Contact: N/A  
Data Release Frequency: No Update Planned

#### SWEEPS UST: SWEEPS UST Listing

Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

Date of Government Version: 06/01/1994  
Date Data Arrived at EDR: 07/07/2005  
Date Made Active in Reports: 08/11/2005  
Number of Days to Update: 35

Source: State Water Resources Control Board  
Telephone: N/A  
Last EDR Contact: 06/03/2005  
Next Scheduled EDR Contact: N/A  
Data Release Frequency: No Update Planned

### Local Land Records

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 05/29/2009	Source: Environmental Protection Agency
Date Data Arrived at EDR: 06/03/2009	Telephone: 202-564-6023
Date Made Active in Reports: 06/17/2009	Last EDR Contact: 05/18/2009
Number of Days to Update: 14	Next Scheduled EDR Contact: 08/17/2009
	Data Release Frequency: Varies

## LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 12/09/2005	Source: Department of the Navy
Date Data Arrived at EDR: 12/11/2006	Telephone: 843-820-7326
Date Made Active in Reports: 01/11/2007	Last EDR Contact: 06/08/2009
Number of Days to Update: 31	Next Scheduled EDR Contact: 09/07/2009
	Data Release Frequency: Varies

## LIENS: Environmental Liens Listing

A listing of property locations with environmental liens for California where DTSC is a lien holder.

Date of Government Version: 05/15/2009	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 05/19/2009	Telephone: 916-323-3400
Date Made Active in Reports: 06/15/2009	Last EDR Contact: 08/03/2009
Number of Days to Update: 27	Next Scheduled EDR Contact: 11/02/2009
	Data Release Frequency: Varies

## DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 06/29/2009	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 07/01/2009	Telephone: 916-323-3400
Date Made Active in Reports: 07/23/2009	Last EDR Contact: 12/30/2009
Number of Days to Update: 22	Next Scheduled EDR Contact: 09/28/2009
	Data Release Frequency: Semi-Annually

## *Records of Emergency Release Reports*

### HMIRS: Hazardous Materials Information Reporting System

Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 03/31/2009	Source: U.S. Department of Transportation
Date Data Arrived at EDR: 04/16/2009	Telephone: 202-366-4555
Date Made Active in Reports: 05/29/2009	Last EDR Contact: 07/16/2009
Number of Days to Update: 43	Next Scheduled EDR Contact: 10/12/2009
	Data Release Frequency: Annually

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### CHMIRS: California Hazardous Material Incident Report System

California Hazardous Material Incident Reporting System. CHMIRS contains information on reported hazardous material incidents (accidental releases or spills).

Date of Government Version: 12/31/2007	Source: Office of Emergency Services
Date Data Arrived at EDR: 05/09/2008	Telephone: 916-845-8400
Date Made Active in Reports: 06/20/2008	Last EDR Contact: 05/18/2009
Number of Days to Update: 42	Next Scheduled EDR Contact: 08/17/2009
	Data Release Frequency: Varies

### LDS: Land Disposal Sites Listing

The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units.

Date of Government Version: 07/07/2009	Source: State Water Quality Control Board
Date Data Arrived at EDR: 07/09/2009	Telephone: 866-480-1028
Date Made Active in Reports: 07/23/2009	Last EDR Contact: 07/09/2009
Number of Days to Update: 14	Next Scheduled EDR Contact: 10/05/2009
	Data Release Frequency: Quarterly

### MCS: Military Cleanup Sites Listing

The State Water Resources Control Board and nine Regional Water Quality Control Boards partner with the Department of Defense (DoD) through the Defense and State Memorandum of Agreement (DSMOA) to oversee the investigation and remediation of water quality issues at military facilities.

Date of Government Version: 07/07/2009	Source: State Water Resources Control Board
Date Data Arrived at EDR: 07/09/2009	Telephone: 866-480-1028
Date Made Active in Reports: 07/23/2009	Last EDR Contact: 07/09/2009
Number of Days to Update: 14	Next Scheduled EDR Contact: 10/05/2009
	Data Release Frequency: Quarterly

### *Other Ascertainable Records*

#### RCRA-NonGen: RCRA - Non Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Date of Government Version: 11/12/2008	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/18/2008	Telephone: (415) 495-8895
Date Made Active in Reports: 03/16/2009	Last EDR Contact: 07/23/2009
Number of Days to Update: 118	Next Scheduled EDR Contact: 10/19/2009
	Data Release Frequency: Varies

#### DOT OPS: Incident and Accident Data

Department of Transportation, Office of Pipeline Safety Incident and Accident data.

Date of Government Version: 05/14/2008	Source: Department of Transportation, Office of Pipeline Safety
Date Data Arrived at EDR: 05/28/2008	Telephone: 202-366-4595
Date Made Active in Reports: 08/08/2008	Last EDR Contact: 05/27/2009
Number of Days to Update: 72	Next Scheduled EDR Contact: 08/24/2009
	Data Release Frequency: Varies

#### DOD: Department of Defense Sites

This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 12/31/2005

Last EDR Contact: 07/31/2009  
Next Scheduled EDR Contact: 09/28/2009  
Data Release Frequency: Annually

### UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 01/05/2009  
Date Data Arrived at EDR: 05/07/2009

Last EDR Contact: 06/15/2009  
Next Scheduled EDR Contact: 09/14/2009  
Data Release Frequency: Varies

### MINES: Mines Master Index File

Contains all mine identification numbers issued for mines active or opened since 1971. The data also includes violation information.

Date of Government Version: 02/19/2009  
Date Data Arrived at EDR: 03/24/2009  
Date Made Active in Reports: 05/05/2009  
Number of Days to Update: 42

Source: Department of Labor, Mine Safety and Health Administration  
Telephone: 303-231-5959  
Last EDR Contact: 06/23/2009  
Next Scheduled EDR Contact: 09/21/2009  
Data Release Frequency: Semi-Annually

### TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 12/31/2007	Source: EPA
Date Data Arrived at EDR: 04/09/2009	Telephone: 202-566-0250
Date Made Active in Reports: 06/17/2009	Last EDR Contact: 06/16/2009
Number of Days to Update: 69	Next Scheduled EDR Contact: 09/14/2009
	Data Release Frequency: Annually

### TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2002	Source: EPA
Date Data Arrived at EDR: 04/14/2006	Telephone: 202-260-5521
Date Made Active in Reports: 05/30/2006	Last EDR Contact: 07/14/2009
Number of Days to Update: 46	Next Scheduled EDR Contact: 10/12/2009
	Data Release Frequency: Every 4 Years

FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)  
FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 04/09/2009	Source: EPA/Office of Prevention, Pesticides and Toxic Substances
Date Data Arrived at EDR: 04/16/2009	Telephone: 202-566-1667
Date Made Active in Reports: 05/11/2009	Last EDR Contact: 06/15/2009
Number of Days to Update: 25	Next Scheduled EDR Contact: 09/14/2009
	Data Release Frequency: Quarterly

FTTS INSP: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)  
A listing of FIFRA/TSCA Tracking System (FTTS) inspections and enforcements.

Date of Government Version: 04/09/2009	Source: EPA
Date Data Arrived at EDR: 04/16/2009	Telephone: 202-566-1667
Date Made Active in Reports: 05/11/2009	Last EDR Contact: 06/15/2009
Number of Days to Update: 25	Next Scheduled EDR Contact: 09/14/2009
	Data Release Frequency: Quarterly

### HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501
Date Made Active in Reports: 04/10/2007	Last EDR Contact: 12/17/2007
Number of Days to Update: 40	Next Scheduled EDR Contact: 03/17/2008
	Data Release Frequency: No Update Planned

### HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing

A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Next Scheduled EDR Contact: 09/28/2009  
Data Release Frequency: Quarterly

### RADINFO: Radiation Information Database

The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

Date of Government Version: 04/28/2009  
Date Data Arrived at EDR: 04/29/2009  
Date Made Active in Reports: 05/11/2009  
Number of Days to Update: 12

Source: Environmental Protection Agency  
Telephone: 202-343-9775  
Last EDR Contact: 07/28/2009  
Next Scheduled EDR Contact: 10/26/2009  
Data Release Frequency: Quarterly

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### FINDS: Facility Index System/Facility Registry System

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 04/28/2009	Source: EPA
Date Data Arrived at EDR: 05/01/2009	Telephone: (415) 947-8000
Date Made Active in Reports: 05/19/2009	Last EDR Contact: 06/29/2009
Number of Days to Update: 18	Next Scheduled EDR Contact: 09/28/2009
	Data Release Frequency: Quarterly

### RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

### BRS: Biennial Reporting System

The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

Date of Government Version: 12/31/2007	Source: EPA/NTIS
Date Data Arrived at EDR: 02/19/2009	Telephone: 800-424-9346
Date Made Active in Reports: 05/22/2009	Last EDR Contact: 06/08/2009
Number of Days to Update: 92	Next Scheduled EDR Contact: 09/07/2009
	Data Release Frequency: Biennially

### CA BOND EXP. PLAN: Bond Expenditure Plan

Department of Health Services developed a site-specific expenditure plan as the basis for an appropriation of Hazardous Substance Cleanup Bond Act funds. It is not updated.

Date of Government Version: 01/01/1989	Source: Department of Health Services
Date Data Arrived at EDR: 07/27/1994	Telephone: 916-255-2118
Date Made Active in Reports: 08/02/1994	Last EDR Contact: 05/31/1994
Number of Days to Update: 6	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

### NPDES: NPDES Permits Listing

A listing of NPDES permits, including stormwater.

Date of Government Version: 03/09/2009	Source: State Water Resources Control Board
Date Data Arrived at EDR: 03/13/2009	Telephone: 916-445-9379
Date Made Active in Reports: 04/08/2009	Last EDR Contact: 06/11/2009
Number of Days to Update: 26	Next Scheduled EDR Contact: 09/07/2009
	Data Release Frequency: Quarterly

### CA WDS: Waste Discharge System

Sites which have been issued waste discharge requirements.

Number of Days to Update: 18      Next Scheduled EDR Contact: 10/12/2009  
Data Release Frequency: No Update Planned

### DRYCLEANERS: Cleaner Facilities

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaner's agents; linen supply; coin-operated laundries and cleaning; drycleaning plants, except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

Date of Government Version: 07/21/2009      Source: Department of Toxic Substance Control  
Date Data Arrived at EDR: 07/21/2009      Telephone: 916-327-4498  
Date Made Active in Reports: 08/03/2009      Last EDR Contact: 06/29/2009  
Number of Days to Update: 13      Next Scheduled EDR Contact: 09/28/2009  
Data Release Frequency: Annually

### WIP: Well Investigation Program Case List

Well Investigation Program case in the San Gabriel and San Fernando Valley area.

Date of Government Version: 07/03/2009      Source: Los Angeles Water Quality Control Board  
Date Data Arrived at EDR: 07/21/2009      Telephone: 213-576-6726  
Date Made Active in Reports: 08/03/2009      Last EDR Contact: 07/21/2009  
Number of Days to Update: 13      Next Scheduled EDR Contact: 10/19/2009  
Data Release Frequency: Varies

### HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

	Data Release Frequency: N/A

### EDR PROPRIETARY RECORDS

#### *EDR Proprietary Records*

#### Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

	Data Release Frequency: Semi-Annually

### VENTURA COUNTY:

#### Business Plan, Hazardous Waste Producers, and Operating Underground Tanks

The BWT list indicates by site address whether the Environmental Health Division has Business Plan (B), Waste Producer (W), and/or Underground Tank (T) information.

Date of Government Version: 06/02/2009	Source: Ventura County Environmental Health Division
Date Data Arrived at EDR: 06/15/2009	Telephone: 805-654-2813
Date Made Active in Reports: 07/23/2009	Last EDR Contact: 06/12/2009
Number of Days to Update: 38	Next Scheduled EDR Contact: 09/07/2009
	Data Release Frequency: Quarterly

#### Inventory of Illegal Abandoned and Inactive Sites

Ventura County Inventory of Closed, Illegal Abandoned, and Inactive Sites.

Date of Government Version: 08/01/2008	Source: Environmental Health Division
Date Data Arrived at EDR: 09/04/2008	Telephone: 805-654-2813
Date Made Active in Reports: 09/18/2008	Last EDR Contact: 05/17/2009
Number of Days to Update: 14	Next Scheduled EDR Contact: 08/17/2009
	Data Release Frequency: Annually

#### Listing of Underground Tank Cleanup Sites

Ventura County Underground Storage Tank Cleanup Sites (LUST).

Date of Government Version: 05/29/2008	Source: Environmental Health Division
Date Data Arrived at EDR: 06/24/2008	Telephone: 805-654-2813
Date Made Active in Reports: 07/31/2008	Last EDR Contact: 06/09/2009
Number of Days to Update: 37	Next Scheduled EDR Contact: 09/07/2009
	Data Release Frequency: Quarterly

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## Underground Tank Closed Sites List

Ventura County Operating Underground Storage Tank Sites (UST)/Underground Tank Closed Sites List.

Date of Government Version: 06/26/2009	Source: Environmental Health Division
Date Data Arrived at EDR: 07/09/2009	Telephone: 805-654-2813
Date Made Active in Reports: 07/24/2009	Last EDR Contact: 07/09/2009
Number of Days to Update: 15	Next Scheduled EDR Contact: 10/05/2009
	Data Release Frequency: Quarterly

## YOLO COUNTY:

### Underground Storage Tank Comprehensive Facility Report

Underground storage tank sites located in Yolo county.

Date of Government Version: 04/21/2009	Source: Yolo County Department of Health
Date Data Arrived at EDR: 05/06/2009	Telephone: 530-666-8646
Date Made Active in Reports: 05/14/2009	Last EDR Contact: 07/13/2009
Number of Days to Update: 8	Next Scheduled EDR Contact: 10/12/2009
	Data Release Frequency: Annually

## OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

### CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2006	Source: Department of Environmental Protection
Date Data Arrived at EDR: 12/11/2008	Telephone: 860-424-3375
Date Made Active in Reports: 03/19/2009	Last EDR Contact: 07/21/2009
Number of Days to Update: 98	Next Scheduled EDR Contact: 09/07/2009
	Data Release Frequency: Annually

### NJ MANIFEST: Manifest Information

Hazardous waste manifest information.

Date of Government Version: 12/31/2008	Source: Department of Environmental Protection
Date Data Arrived at EDR: 05/05/2009	Telephone: N/A
Date Made Active in Reports: 05/22/2009	Last EDR Contact: 08/04/2009
Number of Days to Update: 17	Next Scheduled EDR Contact: 11/02/2009
	Data Release Frequency: Annually

### NY MANIFEST: Facility and Manifest Data

Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Date of Government Version: 05/22/2009	Source: Department of Environmental Conservation
Date Data Arrived at EDR: 05/27/2009	Telephone: 518-402-8651
Date Made Active in Reports: 07/01/2009	Last EDR Contact: 05/27/2009
Number of Days to Update: 35	Next Scheduled EDR Contact: 08/24/2009
	Data Release Frequency: Annually

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### PA MANIFEST: Manifest Information

Data Release Frequency: Annually

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

### Electric Power Transmission Line Data

Source: PennWell Corporation  
Telephone: (800) 823-6277

This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

### AHA Hospitals:

Source: American Hospital Association, Inc.  
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

### Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services  
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

### Nursing Homes

Source: National Institutes of Health  
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

### Public Schools

Source: National Center for Education Statistics  
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### Private Schools

## GEOCHECK® - PHYSICAL SETTING SOURCE ADDENDUM

### TARGET PROPERTY ADDRESS

MCMILLAN FARMS  
EAGLE GLENN PKWY/I-15  
CORONA, CA 92881

### TARGET PROPERTY COORDINATES

Latitude (North):	33.81740 - 33° 49' 2.6"
Longitude (West):	117.5218 - 117° 31' 18.5"
Universal Transverse Mercator:	Zone 11
UTM X (Meters):	451708.7
UTM Y (Meters):	3741838.5
Elevation:	940 ft. above sea level

### USGS TOPOGRAPHIC MAP

Target Property Map:	33117-G5 CORONA SOUTH, CA
Most Recent Revision:	1988

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

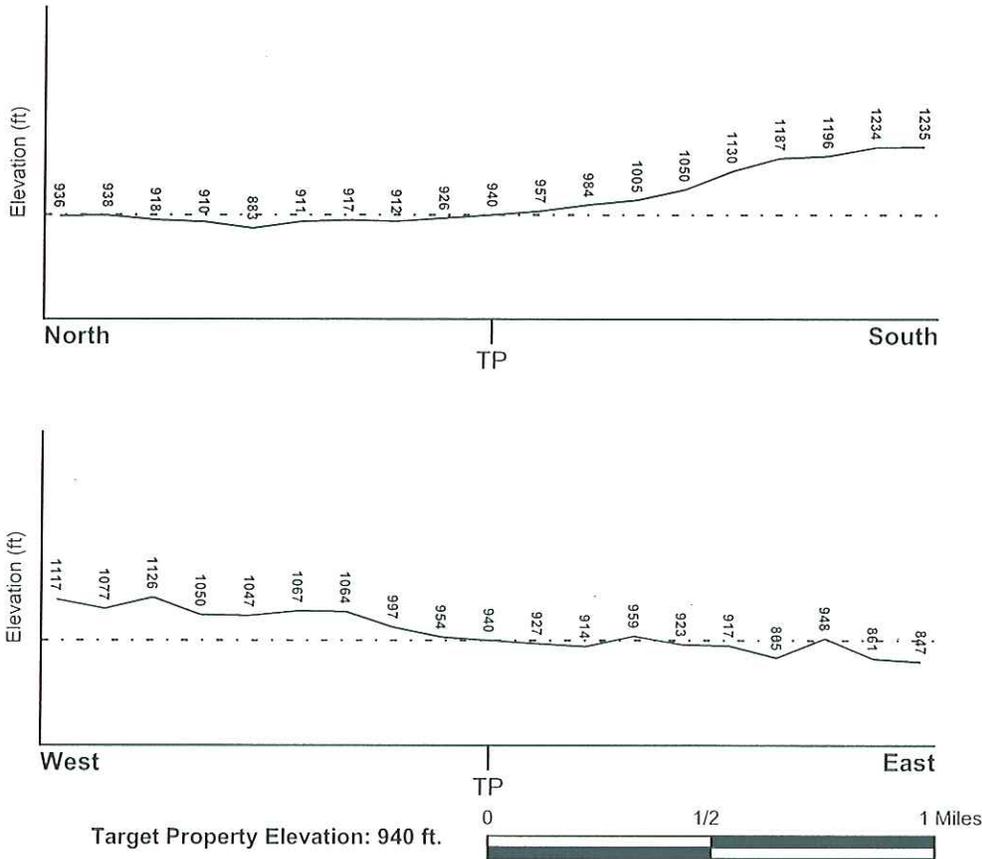

## TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NE

## SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

## FEMA FLOOD ZONE

<u>Target Property County</u> RIVERSIDE, CA	FEMA Flood <u>Electronic Data</u> YES - refer to the Overview Map and Detail Map
Flood Plain Panel at Target Property:	0602451360B

## NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u> CORONA SOUTH	NWI Electronic <u>Data Coverage</u> Not Available
--	---

## HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### *Site-Specific Hydrogeological Data\*:*

Search Radius:	1.25 miles
Status:	Not found

## AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

\* ©1999 Site-specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) investigation.

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

### GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

#### ROCK STRATIGRAPHIC UNIT

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

### Soil Map ID: 1

Soil Component Name: CORTINA

Soil Surface Texture: cobbly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Excessively drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	22 inches	cobbly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 8.4 Min: 5.6
2	22 inches	38 inches	stratified very cobbly loamy sand to very cobbly loam	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 8.4 Min: 5.6
3	38 inches	59 inches	stratified very gravelly sand to very gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 8.4 Min: 5.6

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**Soil Map ID: 2**

Soil Component Name: GARRETSON

Soil Surface Texture: gravelly very fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	9 inches	gravelly very fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 6.1
2	9 inches	53 inches	gravelly loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 6.1
3	53 inches	72 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 6.1

**Soil Map ID: 3**

Soil Component Name: Terrace escarpments

Soil Surface Texture: gravelly very fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class:

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

### Soil Map ID: 4

Soil Component Name: ARBUCKLE

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

### LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

## TOPOGRAPHIC INFORMATION

### USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

### Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

## HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

## HYDROGEOLOGIC INFORMATION

### AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

### Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

### STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

### SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## LOCAL / REGIONAL WATER AGENCY RECORDS

### FEDERAL WATER WELLS

#### PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

#### PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

#### USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

### STATE RECORDS

#### Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

#### California Drinking Water Quality Database

Source: Department of Health Services

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

## OTHER STATE DATABASE INFORMATION

#### California Oil and Gas Well Locations

Source: Department of Conservation

Telephone: 916-323-1779

Oil and Gas well locations in the state.

### RADON

#### State Database: CA Radon

Source: Department of Health Services

Telephone: 916-324-2208

Radon Database for California

#### Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

#### EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

March 14, 1996

Chuck Bandy  
Mc Millan Ranch, Farm Mangement  
29379 Rancho California Road  
Temecula, CA  
92591

Dear Mr. Bandy:

Per our conversation, a Business Emergency Plan application is attached. Also a Business Emergency Plan Inspection report dated 3/6/96 is included for your review. The Inspection report violations shall be corrected on or before 4/15/96.

If you have any questions regarding the Application or Inspection report please contact me 909-358-5055. Thank you for your cooperation.

Sincerely,

Bruce Bailey  
Hardous Materials Specialist

SECTION III

BUSINESS EMERGENCY PLAN: EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the Business Emergency Plan. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of your business, the damage potential of the hazardous materials handled and the location of the facility with respect to residential or other populated areas.

1. EMERGENCY CONTACT PERSON

The emergency contact person and alternate contact person must be representatives for the business and be able to provide technical information and assistance in the event of an emergency during business and non-business hours. The emergency contact person and alternate must have full facility access, site familiarity, and authority to make decisions for the business in the event of an emergency.

NAME AND TITLE	DURING BUSINESS HOURS	AFTER BUSINESS HOURS
A. <u>GARY L McMillen</u>	Ph# <u>909-676-2045</u>	Ph# <u>-</u>
B. <u>Charles E Bandy</u>	Ph# <u>909-676-2045</u>	Ph# <u>-</u>

2. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. Your business is required by State Law to provide immediate notification of any release or threatened release of a hazardous material to:

1. Local fire emergency response personnel;
2. The Office of Emergency Services (OES);
3. The Hazardous Materials Management Division.

If you have a release or threatened release of hazardous materials, immediately call:

FIRE/PARAMEDICS/POLICE/SHERIFF-PHONE:	<b>911</b>
STATE OFFICE OF EMERGENCY SERVICES:	(800) 852-7550
	or (916) 427-4341
THE COUNTY OF RIVERSIDE HAZARDOUS MATERIALS MANAGEMENT DIVISION:	(909) 358-5055

INDIVIDUAL RESPONSIBLE FOR CALLING THE HAZARDOUS MATERIALS MANAGEMENT DIVISION AND THE OFFICE OF EMERGENCY SERVICES: Charles Bandy

B. IDENTIFICATION OF THE CLOSEST APPROPRIATE EMERGENCY MEDICAL FACILITY AVAILABLE TO YOUR BUSINESS:

NAME: Corona Regional Medical Ctr.  
 ADDRESS: 800 S. MAIN  
 CITY: Corona, Ca.  
 PHONE: (909) 737-4343

3. PREVENTION

Describe the kinds of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help PREVENT an accidental release of a hazardous material at your business. Issues for discussion may include safety, storage, and containment procedures. Please be specific for each type of Hazardous Material at your business.

(attach additional pages if necessary)

*Propane Tanks for wind machines are plumbed with below ground steel piping. Tanks are located in drive rows for improved visibility. Fertilizer tanks are fitted with steel locking valves to prevent spillage.*

4. MITIGATION

Describe the procedures to be followed to REDUCE THE SEVERITY of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your facility or that violate any workers' safety laws. (attach additional pages if necessary)

*SEE attached*

5. ABATEMENT

Describe what you would do to STOP and REMOVE each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release? (attach additional pages if necessary )

*SEE attached*

6. EARTHQUAKES

Identify the areas and equipment in your business which would require immediate attention following an earthquake. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation. (attach additional pages if necessary)

*SEE attached*

### Section III

#### Business Emergency Plan: Emergency Procedures (continued)

3. Prevention (continued)  
1000 gal Diesel Tank

4. Mitigation

1) Propane - If propane is released from a tank, employees are instructed to evacuate the immediate area, and to call Gary McMillan for an inspection. In case of a fire/explosion employees will call 911.

2) Diesel Fuel - Employees have been instructed to construct a dirt berm containment around any spillage. In case of fire employees call 911.

3) Fertilizer - Employees have been instructed to dilute any spillage with water.

5. Abatement

1) Propane - We have no ability to stop a release of propane. However it would require no cleanup or removal.

2) Fertilizer - would not be cleaned up or removed. It would be diluted.

6. Propane

Tanks and piping would require attention following a severe earthquake.

SECTION IV

BUSINESS EMERGENCY TRAINING

Employers are required by State law to have a program which provides employees with initial and refresher training in the following areas:

- A. Methods for the safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material (MSDS) and measures employees can take to protect themselves from chemical hazards;
- B. The CAL OSHA Hazard Communication Standards;
- C. Correct use of emergency response equipment and supplies available at your business;
- D. The prevention, abatement and mitigation procedures you have developed for your facility and explained on the business plan;
- E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
- F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
- G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials.

1. Personnel

A. Are there any specially trained hazardous materials emergency response personnel at your business?

YES \_\_\_\_\_ NO

If yes, how many personnel and what are their levels of training or capabilities?

\_\_\_\_\_  
\_\_\_\_\_

B. Do you have decontamination capabilities for victims of exposure to hazardous materials at your business? YES \_\_\_\_\_ NO

If yes, what type of decontamination can be performed at your business?

\_\_\_\_\_  
\_\_\_\_\_

C. Do you have personnel that will provide site security at your facility during and after a hazardous materials incident? YES \_\_\_\_\_ NO

2. Equipment

A. List the type and location of equipment that can or will be used for response to hazardous materials incidents at your business. (Examples of equipment types: personal protective equipment, fire extinguishers, spill containment material, etc.)

TYPE OF EQUIPMENT	LOCATION
<u>Fire Extinguishers</u>	<u>Shop</u>
<u>Abatement</u>	<u>Shop</u>
<u>Boots, Coagles, Gloves</u>	<u>Shop</u>

ALL EMPLOYEE TRAINING SHALL BE DOCUMENTED AND UPDATED ANNUALLY
