## FOOTHILL PARKWAY WESTERLY EXTENSION PROJECT

### PROJECT OVERVIEW

The Foothill Parkway Westerly Extension Project is over 90 percent complete and is on budget. The long-anticipated project, which has been a part of the Sierra Del Oro Master Planned Community since the 1980s, is scheduled to be completed and open to traffic in November 2016.

The Foothill Westerly Extension Project is located in the southern portion of the City of Corona along the base of the Santa Ana Mountains in the Cleveland National Forest, and involves the extension of Foothill Parkway as a four-lane roadway, from approximately 500 feet west of Trudy Way to Green River Road. The project will improve east/west traffic flow through the southern portion of the City and provide a parallel route to Ontario Avenue.

A ribbon cutting ceremony is scheduled for Saturday, November 19, 2016 from 8:00a.m. to noon. This event is open to the public with many exciting events planned.

PROJECT MAP

### PROJECT FEATURES

- Two miles of a four-lane roadway
- Project location creates a fire break and emergency access in the event of a fire or evacuation
- Expansion of the Mabey Detention Basin
- 1,000 feet of storm drain improvements
- New signalized intersections at Chase Drive/Foothill Parkway, Border Avenue/Foothill Parkway and Green River Road/Paseo Grande.
- 9,000 feet of multi-purpose trails
- Fiber optic connectivity

# PROJECT SCHEDULE

Extension of Foothill Parkway has been planned since the mid-1980s. It was included in the City's General Plan Update in 2004.

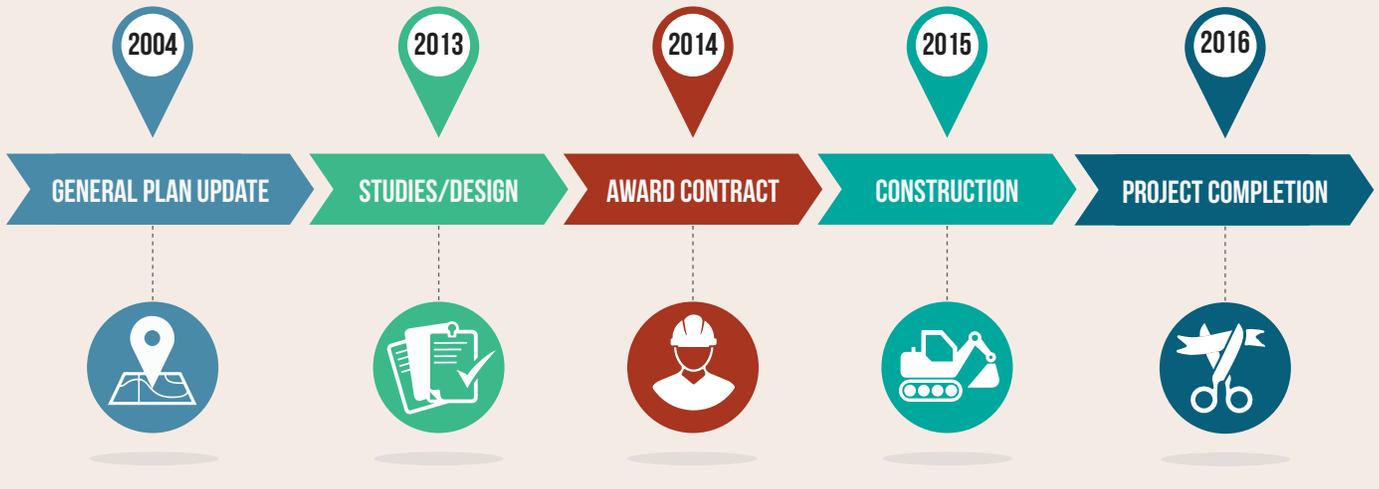

Environmental Impact Report / Environmental Assessment and technical studies and design are conducted.

The bid was awarded to the contractor Sukut/Flatiron Joint Venture.

Permits issued by Corp of Engineers and contractor received notice to proceed with construction.
